### About Me

A dedicated and agile Full Stack Web Developer with 1-month of professional experience. 1200+ hours of hands-on experience in coding and 500+ hours of DSA. Have built 5 major projects and 20+ minor projects.

### Professional Experience

#### SDE-I, Ivykids(Yellow Class)

May 2023- June 2023 | Gurugram, India

##### My responsibility :

- Developed backend-side logic to publish various articles using the admin panel
- Worked on client side to render these articles

### Projects

#### BabyBliss

BabyBliss is a website through which users can order a range of products for newborn babies and kids like diapers, baby health products, shirts, jeans, shoes and mom's products.

**Tech stack :** Next JS | Firebase | Chakra UI | Material UI

##### Features :

- Login/Signup using Firebase.
- More than 1000 Products from different categories like Boy, Girl, Footwear, Diapers, Health, and Moms.
- Filter by color, price, pattern, brand, price, and sort by price and discount functionality has been provided.
- Add to cart or wishlist /delete from cart or wishlist and Checkout

##### My responsibility :

- Worked as the Project lead
- Made all the product pages like Boy, Girl, Footwear, Health, etc.
- Developed all the filter and sorting functionality in the product pages.

#### KFC- Clone

KFC is a fast-food website through which users can order various veg & non-veg snacks. This is a solo project which was made in a duration of 5 days.

**Tech stack :** React JS | Chakra UI

##### Features :

- Login/Signup
- More than 100+ menu items using the server
- Add to cart/delete from cart and Checkout
- Made all the pages
